ColourStrip RGBW 24V LED Strip - RGB + CW - MLRGBW58

Max Run Length	10m
Width	12mm
Lumens	1200 lumens per meter
LED Density	60 per meter
Wattage @ 1m	19.2w
Adhesive Type	3M VHB
Cut Points	100mm
Colour Temperature	5800-6500k
CRi	>80
Voltage	24V

Description:

The addition of a white chip to RGB means better colour control and a much wider colour palette, as well as true white capability. This version has a true cool white chip built into the LED

The high-brightness chip provides vibrant, bright and exciting colour output for maximum effect. A heavy-duty 3oz PCB means better thermal control for enhanced long- term reliability and a generous 10m single run length.

ColourStrip is available with a choice of white chip colours – warm white or cool white.
